The Nurse having informed me, that on last Saturday they drew the attention of the House Committee to the want of Water Closet accommodation in the Wards of the Hospital and that the Committee approved of my Earth Closets, They to recommend such as being very necessary and desirable.

They were brought without his knowledge and met at the head of the stairs against his command, who considered the visit unsuitable because sick and feeling that it could not travel to them could not

By whose authority they were removed he cannot be sure, but it was by that of the Governor however that may be, he arrived at the Hospital in morning he found them gone at which he rejoiced as indeed they were of no use and useless

If placed in the lower wards they would be an advantage if day earth were supplied which had not been heretofore

Medical Officers Report

That he had received from the Clerk a copy of what purports to be a report of his of 18th January 189th but which in reality is merely a memorandum of a statement the Board made to him of the approval of the Board the 18th of the 18th and on the strength of which he recommended such as was necessary and desirable. But neither the Board nor the Committee gave him any intimation of their intention to get them. Had he known such was their intention he would have recommended a description of article fit for use in the Wards, where they were required, and not the clumsy ones got and placed outside the wards, quite useless to the sick. This Book has no report on the subject.

The Visiting Committee was ordered to be summoned for Thursday next the 18th Inst at the hour of 2 P.M. to consider the foregoing and report thereon to the Board.
