There being no tenders for effecting certain external repairs to Walls of House and Hospital - the Clerk was directed to again advertise and invite tenders for the 3rd April. The Master reported Referring to Boards' minutes of the 13th Inst re Mr. Hugh Beirne's death. He begs to state that he is not aware of any unusual circumstances in connection with his death. He was admitted to Hospital on the night of the 18th Inst on the Medical Officer's Certificate and the Relieving Officers' tickets of admission and died about 3 o'clock the following morning. Order of Master to report more fully the time of his admission and death and if he had sent for the Medical Officer.

A

A communication having been received from the Honorary Secretaries enclosing a paper memorial to His Excellency the Lord Lieutenant praying for the Saturday early closing of all Public Houses in Ireland and no cities to be exempted the document was marked read.

Medical Officers Report That in the published reports of the Boards proceedings are circulated statements made by some Guardians at late meetings of a very injurious character relative to the death of a child in the body of the house at which he lay as little as if he had died in child bed and the body was not even left in its cot for him to see it. As a matter of fair play and justice he asks for a thorough inquiry either to confirm these insinuations or to put an end to them for ever. He is pleased and satisfied with in his opinion - the eminently satisfactory requests and working of the Hospital and he shall certainly not allow misconception to be circulated about it.

Order charter to have a full report on Saturday

Medical

Medical Officers Report No 2, That he begs further to report that Hugh O'Brien had debilitation of his heart and that his death was accelerated by fatigue and the still continued want of proper nourishment. The death of this man is analogous to that of Michael Haulehan who died on the 4th January 92 with the exception that there was no criminality in the case of O'Brien but wicked criminality in the case of Haulehan in each the heart failed from exhaustion and each died suddenly. On O'Brien's admission to Hospital he was provided with heat fluids, stimulants, and continued attention. This man could walk about up to his death which clearly shows the difficulty Relieving Officers have in dealing with Tramps and the great danger incurred in refusing them relief. It is possible another untoward event will occur.

occur in the Probation and Wards if the system there be not changed. At mid-day in one of these wards he lately found a woman her infant and a partially crazed being locked up together up stairs away from aid.

In the House there is no provision made for the accommodation of lunatics. This weak minded woman is now in the Infirmary Ward among the old women, and he understands she passes the night roaming the Ward with her bed clothes on her back. In his report on last Saturday on the quantity of shrouding by an error he wrote three yards instead of six yards the quantity required.

The consideration of the foregoing was postponed to next meeting.
