GS01/5 Richard St George Mansergh St George, 1775, 1812, 1853

Leather bound gilded volume with maps and descriptions of the estate of Richard St George Mansergh St George, Headford, county Galway.

The Richard St Geroge Mansergh St George, Maps of the Estate of Headford Estate, Co. Galway

1775

by Charles Frizell Junior

Includes rent roll of the estate detailing denominations, who tenants and occupation names, number of acres held, presumptive value of acres, and total presumptive value held in each town.

Also includes an engraved plan survey of the lands of R. J. Mansergh St. George held in the possession of the estate 1812 (1832), and a rough note with details of area and value of some farms in 1853.

Includes a list of the names of the tenants of the Mansergh lands from 1775 back to 1812, and a list of the names of the tenants of the estate from 1812 to 1853. Richard Mansergh St. George was murdered by rebels in 1798 leaving an estate of 10,000 acres to his son, Stephen St. George.

File 1/5

Maps of the estate of Richard St George, Headford, Co. Galway and Kildare, by Charles Frizell and Richard Frizell, 1775, are held in the National Library of Ireland (see www.nli.ie).

**GS01/5 MANSERGH, RICHARD ST GEORGE, HEADFORD, COUNTY GALWAY,
1775, 1832, 1853**

Leather bound gilt-edged volume with maps and descriptions of the land, together with details of tenants, compiled by Charles Frizell, Junior [surveyor]¹, of the estate of Richard St George Mansergh St George, Headford, county Galway.

The survey commences with a general description of Headford town, stating '*... the Town has every convenience, first it is a healthful situation having plenty of turf, very contiguous for firing, good water, and the lands exceeding fertile, limestone grounds fit for grazing or tillage,Headford would become the stopping place from Ballinrobe & Castlebar for Travellers and probably bring inhabitants to reside which from its remote situation at present and for want of encouragement no Stranger had any inducement to settle. There are several looms in the Town if encouragement is given to Linen manufacturers to settle may in some time hence flourish...*' (p6).

The maps, drawn in colour, show the layout of the each individual farm, the position of adjacent farms and the location of additional features such as houses, bogs, rivers, trees and as on. The survey includes a description of the land in each farm, which include Ballinakillagh, Ballricard, Ballycolligan, Ballyhale, Bolladrivedamoan, Bunacunneen, Bunanrane, Cahirgall, Caltragh, Carrowbegg, Cloneen & Cloneen Gortronrey Quarter, Cloonavarnohe, Crushusha, Crushusha Carrigashingane Quarter, Culleen, Curdarragh, Ellough, Gurtarica, Keirnane, Killaree, Killkilvery, Killmurry, Lissdonagh, Lough Hackett, Oldtone Bogherkile, Oldtone Donagh Quarter, Oldtone Gortnaponra, Oldtore Bunnally Quarter, Raphoy, Ross, Torlagh Monaghan, Tubbercrissane, and Turlaghtcorr.

Includes rent roll of the estate detailing denominations, and tenants and occupiers names, number of acres held, presumptive value of acres, and total presumptive yearly rent in each farm.

Also includes on detached sheet survey of the lands of R. J. Mansergh St. George last in the possession of James Turrell (1832), and a rough note with details of area and value of some farms (1853).

Burkes' s Irish Family Records, 1976 entry relating to the Mansergh family traces it back to 1490, and indicates that it held lands predominately in county Tipperary. Richard married Anne Stepney of Durrow, and was murdered by rebels in 1797 leaving two sons, Richard James, and Stepney St George.

Size 89pp

¹ Maps of the estate of Theobald Wolfe, (in co. Galway and Kildare), by **Charles Frizell** and Richard Frizell, 1760, are held in the National Library of Ireland (see *Hayes Manuscript Sources of Ireland*).

Total Acres..... 768 3 9

Remarks to Headford.

6

This Town and lands lie in a fine Country between Galway Tuam and Ballinrobe and about a Mile from Lough Coribb where you have a Water Carriage for large Boats to ply to Galway which is not more than 12 Miles by Water. the Town has every Convenience, first it is a healthful Situation having plenty of Turf very Contiguous for firing, good Water, and the Lands exceeding fertile, limestone Grounds fit for grazing or Tillage, the Rampark would be worth £1. 10 ^p acre if improved also the Town Parks begining at Gurtuamona and extending to Cloonacarnoge are much out of heart which if improved would be worth from £1. 2.. 9 to £1. 5 ^p acre and perhaps some at £1. 10. The Racefield Quarter is much out of heart & reduced to the lowest State by Tillage and would be worth £1. 2.. 9 ^p acre if improved The Dispute N^o 126 had always been in the possession of the Inhabitants of Headford but claimed by M^r Blake as part of Ballyfruid (in order that this dispute might be adjusted M^r Thewles on the part of Major Mansergh as his Law Agent & M^r Blake on his own behalf had a Meeting some Years ago whatever the decision at that time was M^r Blake & his Tenants took possession of the Dispute which they have since enjoyed & now withhold the same as I have been informed. At **A** there is an old Corn Mill which has been supplied by a Spring at **B** the Dam breaking it has continued its Course into the Lough and the Mill was obliged to stop as also the Water that run from it thro' the Town was of great use the Dispute while continued in the possession of M^r Blake & his Tenants they never will permit the Watercourse to the Mill to be turned the Windmill on N^o 110 may be put in repair at an easy expence & would be very advantageous to the Town and have a pretty Effect from it, the Road from the Town by the Old Mill to the Turf Bog should be presented to continue it across the Bog and have a Bridge made over the River to communicate this new Road to Ballinrobe Road by doing this and repairing the Road to Cloghanour and thro' Keirnane to the high Road to Galway.

Headford would become the stopping place from Ballinrobe & Castlebar for Travellers and probably bring Inhabitants to reside which from its remote situation at present and for want of Encouragement no Stranger had any inducement to settle, there are several Looms in the Town if Encouragement is given to Linen Manufacturers to settle may in some time hence flourish, The new Road across
Headford

Remarks on Headford Continued

Headford Bog I do most strenuously recommend to get compleated as I am sure a presentment will be easily obtained, the Sessions which was once held in this Town has been removed to Loughrea and Tuam as I have heard it would be of singular Service to the Town that the Sessions would be brought back, the old Session house can be repaired, a good Inn established in the Town would be of great Utility as Travellers at present for want of Accomodation & such a house established either go another Road or proceed on their Journey

Laying the worn Grounds of Headford down the last Crop with a Stone of Clover & three Barrels of Grass Seeds if no Grass Seeds a Stone & a half of Clover will do graizing the Lands light for two or three Years until the Ground comes into heart then manuring the Land and taking three or four Crops & laying it down as aforesaid with grass Seeds & Clover, regarding that your Land should be in broad Lands or Ridges, This is a piece of Husbandry totally unknown to the Inhabitants on this Estate I will Contend for it that the industrious Husbandman pursuing this direction that no Lands in the province of Connaught will yield a greater Increase and that the Lands which are so improved will increase in its Value one fourth or fifth more than its now really worthe.

N. B.

Lime is the Manure I would recommend for Grass & Limestone Gravel for Corn, the quantity to manure an acre of Lime is 60 Barrels and Limestone Gravel 800 Loads at least. Or white Marle is an excellent Manure which may be applied instead of Lime, and Can be got at Turlaghcorr where there is a great plenty, 150 or 200 loads will be necessary to manure an acre, if the Land is any thing in heart, if worn a lesser quantity will do

144	Do Green Bogs	7	2
		95	1

Remarks

This farm has a good Stone House and Orchard on it, fit for the residence of a farmer, As also there are several Cabins on it, the Land is for the most part worn, which at an easy expence can be restored, having the advantage of Limestone and Limestone Gravel on it for Manure - See page 10, Lay this Land down the same way. The presumptive Rent considering the present state of the Land is high but if improved is well worth the money

		<u>70</u>	<u>3</u>

Remarks

This farm is a sound limestone Ground but has been much worn by Till which by liming or graveling and after a Crop of Corn or two lay the Land down with a stone of Clover and three Barrels of Grass Seeds per Acre will restore the Ground to its full strength and fertility and at the same time fully recompence the industrious Husbandman. By the Improvement the Land would be worth £1 7^s per Acre

		117

Remarks

On this farm there is a good farm House and Orchard, one of Captain William Ross's Sons resides in the House, the Lands in tolerable Order & has plenty of Limestone for Manure, & the Bog very Contiguous to burn the Lime - Lay the Land down as in page The Bog wants draining as at present it's unsafe for Cattle to go it and of no value to the Tenant ..

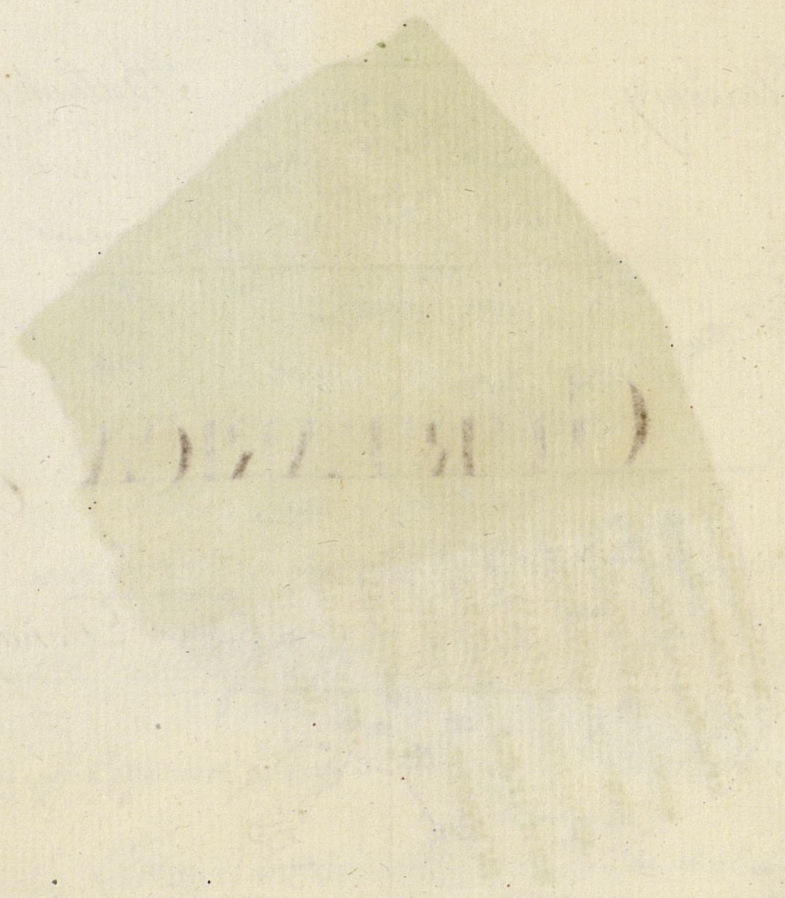

149 Gurtarica Arable & pasture 107 3

Remarks

This farm is held by Captain Ross's Undertenants and is for the most part good Arable and pasture, there is plenty of Limestone for manure and D.^o Gravel, Observe page 10 to lay the Lands down, On account of the uncertainty of Captain Ross's Lease his Undertenants are using the Lands much by Tillage which will reduce the value.

159 Oldtore, Bunnally Quarter Arable and limestone pasture 221 0 1

Remarks

This is a good farm for one Tenant, the Land is a good deal worn by Tillage but as it's a sound limestone Ground by manure and laying the Ground down with grass Seeds and Clover the last Crop will abundantly repay the industrious Husbandman. The presumptive Value Considering the worn state of the Grounds is high, but by pursuing the aforesaid improvement will be worth more than they now are valued at

160 Oldtore. Bogherkile Quar^r Arable and rocky pasture 153. 0 14

A. R. P.

Remarks

This farm for the most part is under pasture, which is a sound limestone Ground fit for Sheep Walk only, As the Lands are very Rocky.

1027 Mr. O'Halligan got this land in excellent order not a sod broken & it is let as a sheep farm for which it is well fit. As the white lime there is not used in any part of it.

No. 161

Reference

A. R. P.

161.. Oldtore, Gortnaponra Qua^r drable & rocky limestone }
pasture } 151 1 33

Remarks

This farm is mostly under pasture and is a good Sheep walk and now held by Mr John Skerret who has it in good Order

1027- There is a sort of cave called Boularagherg which if deepened would doubtly lead to a subterranean river a most useful appendage to this farm - it was filled up with stones some time ago on acct of the country being trowed - this ought to be cleared away

The land has been severely treated by the tenant & several small holes to a set of villages - burnt & watered - it is not fit for tillage but should be kept as a sheep farm & in without proper water & shelter for the sheep

167 Caltragh Arable and rocky limestone pasture 50. 2. -

Remarks

This farm is a sound sheepwalk and good for Tillage, by M^r Dominick Skerrets partition of Turlaghcorr the Tenants are debarred from their right of Commonage on the Turlagh though specified in their old Lease, this farm by adding N^o 160 of Raphoy to it would make it a good farm.

274

Remarks

This farm is good arable and limestone pasture by adding N^o 168 to Caltragh N^o 169 is a sufficient farm for the present Occupiers who are Undertenants to M^r. Maurice Blake, On Turlaghcorr there is plenty of white Marl for Manure, the Tenants to this farm have no liberty to graize on N^o 171 according to the lines of partition he laid out, there is plenty of white Marl on the Turlagh for Manure, the Tenants who occupy the Land are very very numerous (and poor) and pay their present Rent badly as I am told - I am therefore at a loss to know how they will pay the presumptive Rent unless indulging them for two or three Years at an easy Rent, and in the mean time by proper Covenant to oblige them to manure their Lands and lay them down with Grass Seeds and Clover - See page 10 -

about

 212. 0. 0

Remarks

This Turlagh is very good for grazing in Summer time & the Bottom under
the Surface is an entire Bed of White Marl. N^o 170 is laid out
for Commonage to Raphoy, Keirnane Caltragh & Cloghanour.

It has on it a good Eel Weir, the Lough has plenty of Fish in it,
N^o 171 was laid out by a partition of M^r. Dominick Skerret as
Commonage to Kylegorrivo and is now set by him to M^r. Philip
Athy at the Yearly Rent of £20.

William, George (43)

173	D. ^o Rocky limestone pasture	212	0	20
		266 3 20		

Remarks

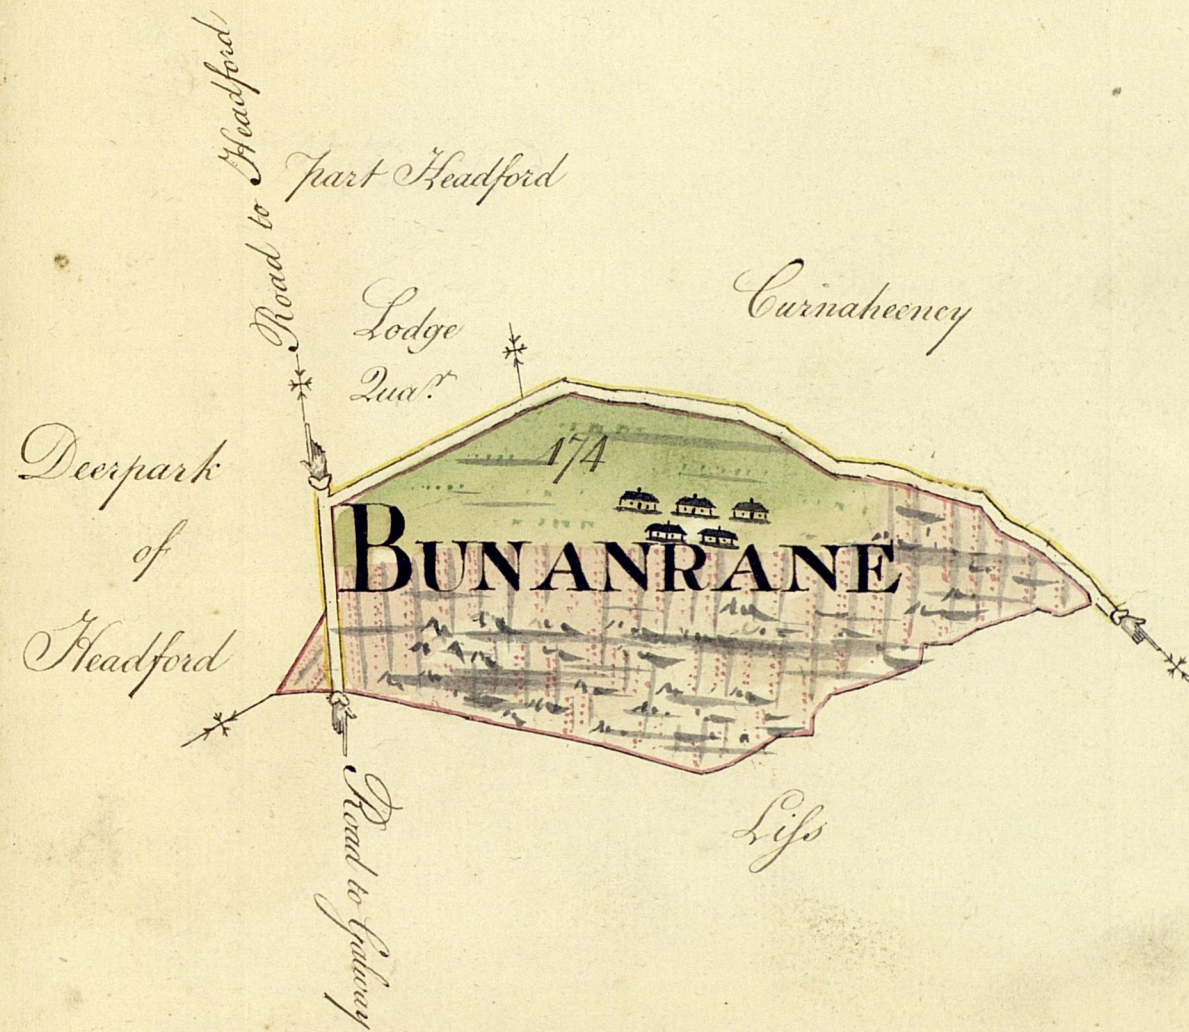

This farm is held by sundry Tenants the Land is good for Tillage and Sheepwalk, there is plenty of white Marl on the Turlagh for Manure, the Tenants have no liberty to graze their Cattle only on N^o 170 in Common with the Tenants of Raphoy & Cloghanour as M^r Skerret has 171 in his possession. The presumptive value of this farm is high considering the worn state of the Tillage Lands the Tenants are very numerous and poor & should be encouraged for two or three Years to enable them to improve, as they are now hard set to pay their present Rent - See page 40. -

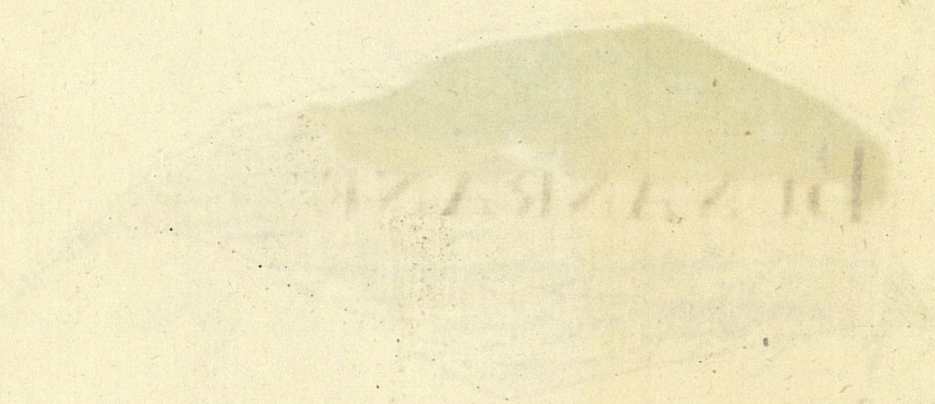

174 Bunanrane Arable and pasture 52 2 0

Remarks

This farm is held by the Undertenants of M^r James Gallagher, it is a sound limestone Ground fit for Sheep walk and Tillage - Observe page 10 to lay the Land down the last Crop with Clover and Grass Seeds. - As at present it wants such improvement - being much worn by Tillage, I am at a loss to know how the Tenants to the Headford Estate in general can propose to themselves paying the presumptive Rent nay much less the old reserved Rent without putting their Lands immediately under a proper Course of Improvement - The presumptive Value is high Considering the present state of the Land
